VOLUME 6.

CHASKA, MINNESOTA, SATURDAY, JANUARY 11, 1868.

TERMS, \$2 00, Per Annum.

NUMBER 18.

The Valley Herald

BY F. E. DU TOIT.

CHASKA, SATURDAY, JAN 11, 1868.

Report of State Superintendent of Public Instruction.

We tender our thanks to the State Superintendent of Public Instruction Hon. Mark H. Dunnell, for a copy of his annual Report for the year 1867.

The whole number of scholars returned, as published in this Report 114,421 being an increase over last year of 12,303. This exhibits a healthy growth through hardly in proportion to our increase in population, we should think. The whole number of male teachers employed during the year was 749, an increase over 1866 of 217. The number of female teachers was 1,836, an increase of 211 over 1866. The whole amount paid teachers in 1867 was \$254,986.76. The amount paid in 1866 was 169,146.46—the increase being \$85,840.30—387 school houses were built during the year at a cost of \$331,219.60.

The State Superintendent mentions with pride the school houses erected and prepared this year in the towns of Winona, Minneapolis, St. Anthony, Fairbault, St. Charles, Plainview, Northfield, Preston, Henderson, Mankato, Hastings and other towns in the State, and gives these instances as an evidence of thrift and intelligence of which Minnesota may boast.

He recommends the adoption of the graded school system in the strongest terms, and says that no doubt now exists that it is the very best system ever attempted, and is being universally adopted. He also takes strong grounds in favor of amending the law so that counties in the State shall be obliged to have a county superintendent of schools.

The Legislature.

The Legislature met, at noon yesterday, and an immediate organization was effected in both houses. In the Senate the following officers were elected:

Secretary of the Senate—A. B. Webster, of Steele County.

Assistant Secretary—F. E. Snow, of Ramsey County.

Enrolling Clerk—A. M. Olin, of Rice County.

Enrolling Clerk—S. D. Nichols, of Olmsted County.

Sergeant-at-Arms—G. R. Wedgwood, Wright County.

Fireman—J. B. Plummer.

In the House of Representatives the following officers were elected:

Speaker—J. Q. A. Farmer, of Fillmore County.

Chief Clerk—S. P. Jennison, Ramsey County.

Assistant Clerk—M. D. Flower, of Blue Earth County.

Enrolling Clerk—Peter McCracken, Enrolling Clerk—B. Kilholz.

Sergeant-at-Arms—A. H. Reid, of Anoka.

Fireman—John Beason.

The usual committee was appointed to wait upon the Governor and notify him that the two houses were organized and ready to receive his message. They visited his office, but as he was absent they did not obtain an interview, and the Senate and House immediately adjourned.

The address of Speaker Farmer, on assuming the chair, was a little lengthy, but was neat and appropriate, and contained many excellent suggestions, especially in regard to the manner of presenting business by which the session might be materially shortened and the public money saved.—Pioneer.

The "Dent" Letter.

A well informed correspondent of the Cincinnati Commercial says:

"There is a great mystery hanging over what is called the Dent letter.—Gathering the gossip heard about the Union League Club, I am inclined to believe the letter genuine. One thing is certain, the A. T. Stewart movement, if not based on the letter, is strangely in accordance with its teachings; and although the letter is pronounced a forgery the movement continues. This is not all. The article in the Galaxy by a personal friend of the General, breathes the same spirit, and every utterance that can, by implication, be considered as approved by General Grant, is seen thro' the same mirror.

The opinion of the Club is that the letter was a genuine letter from Grant's father-in-law, and inspired by Grant himself. But the publication being thought injurious to the General, it was considered best to pronounce it a forgery."

Democratic Conventions and Celebrations—George H. Pendleton.

Yesterday—the anniversary of the victory of Gen. Jackson at New Orleans—was observed in many parts of the country by the Democratic party in State Conventions, popular assemblages and festivals. The Ohio State Convention, which met at Columbus, elected delegates at large to the National Democratic Convention, and nominated candidates for Presidential electors at large, and such State officers as are to be filled at the election in October next. This convention also nominated George H. Pendleton for President, amidst great enthusiasm.—The Indiana Democratic State Convention was also held at Indianapolis, and nominations for State officers were made. Democratic meetings were also held at Washington, St. Louis, Newark, N. J., and other places. Our dispatches contain the proceedings of a large number of these meetings, all of which were very enthusiastic, pervaded by the best spirit, and animated by the hope of coming victory while displaying the firm resolve by which victory is to be labored for and secured.—Pioneer.

The Alabama Matter.

So much has been written and said about the Alabama claims that few people know what they are, or in what stage the negotiations stand. We will try to explain.

1. The Alabama claims include claims that the United States urges against England for pay for all the depredations committed on our commerce by rebel cruisers that were fitted out in English ports.

2. The United States insists that the whole subject matter of these claims, and questions of international law shall be settled by arbitration.

3. England peremptorily refuses to submit to arbitration any questions that involve her right to recognize belligerents, that being a pure question of English law, not to be settled by foreign opinions on the subject.

4. England, however, offers to submit to arbitration the Alabama claims, and to refer all other demands for indemnity to the decision of a mixed commission.

That is where the negotiations stood at the death of Sir Frederick Bruce.—The apparent dead lock has, it is said, been referred to the new British Minister with instructions to reopen the negotiations.—Pioneer.

An Important Question.

From the Rochester Post, Jan. 4.

One of the most important questions to be decided by this Legislature is: "What shall be done about the railroad bonds?" It is certain that something ought to be done about them. It is simply dishonest for the State to allow the claims of the bondholders to remain in their present unsettled condition. Dishonest and tricky as was the proposition voted down by the people last fall, it is no excuse for repudiation. Those bonds have been running since 1850, and though the principal is not due for several years yet, the interest was payable annually, and we believe that not a cent of it has ever been paid by the State. It ought to be the first business of the Legislature to see that the State does what any honest individual would do under the same circumstances: first ascertain what is honestly due to the bondholders on their bonds, and then make some arrangement for paying that amount and no more.

We think the easiest and best means of doing this would be by appropriating the \$500,000 acre land grant to that purpose, but we hardly expect to see it done.

The New York Times says Senator Sprague's speech, which we published a day or two since, commands attention, not only on account of its startling and sombre picture of our business condition and prospects, but the boldness with which it rebuked some of our pet follies. "The spirit of bragging and the brag of the American people," said Mr. Sprague, "has been their ruin." While we have been indulging in dreams of our immense superiority over all the rest of the world, other nations have been quietly undermining us in every department of industry, until there is not a single article of American manufacture that enters into the world's consumption. These are wholesome truths, and we more we reflect on them the better.

Editorial Convention.

The call for the second annual meeting of the Minnesota Editorial Association has been issued for the 21st day of January, at 11 o'clock A. M. in the city of St. Paul.

The annual address will be delivered by Col. E. A. Calkins instead of Capt. C. W. Nash, who will be absent from the State at that time.

An original poem will be read by our friend Ossian E. Dodge Esq., the celebrated humorist.

Editors and publishers throughout the State are invited.

The call is signed by the President D. Sinclair, of the Winona Republican, and the Secretary, W. B. Mitchell, of the St. Cloud Journal.

HOME ITEMS.

HERALD AGENT CARVER—G. A. Du Toit.

THE PRESS REMEMBERED.—Alex. Johnson, Frank Mead, F. E. Du Toit, and A. J. Reed, members of the Press were supported for positions in the Senate and House by the Democratic members. We hope the day is not far distant when the claims of members of the Press may be more fully recognized.

BAILED.—Lafayette Copley has been set at liberty, he having furnished the required bail in the sum of \$300.

SNOW STORM.—It is some time since we have been called upon to record, "an old fashioned snow storm" such as visited us the latter part of last week, and which lasted until Monday. A large quantity of snow fell, and now lies at least two feet deep upon the ground. It will make splendid sleighing when the roads are thoroughly broken.

Hoop-Poles and Wood.—Since the last fall of snow, a large quantity of hoop-poles have made their appearance in our market. Wood is also being brought in rapidly, but does not command a very high price.

WHY IS IT?—We would know why it is that we have not an Express Agency in our town? Will some of our business men undertake to answer us, we should like to know the reason, if any.

ST. PAUL PRESS.—We would recommend this sterling republican journal to our radical friends in this vicinity. It has an able corps of reporters, and will give during the winter full and accurate reports of the proceedings of the Legislature. It also has full telegraphic dispatches. As a newspaper it cannot be excelled in the Northwest. Terms, daily \$10, per annum, Weekly \$2. Address Press Printing Co., St. Paul, Minn.

'THE VICTORY' KEROSENE BURNER.—J. W. Gregg, presented us with a recently patented, "Kerosene burner," which upon trial we pronounced to be unsurpassed. It is completely inextinguishable, cannot be broken by the flames, and can be extinguished and lighted without removing the chimney. It can be seen at the Post office and at Young's store. Next week we will give many of its advantages over all other Kerosene burners. In the mean time call and examine them.

SHIPMENT OF FLOUR.—The Chaska Mill Co. have put on a line of freighters between their Mill and Meridian Station, who are and have for some time back, been hauling flour, for shipment to Chicago. We understand they have some 3,000 barrels in store, whether to be shipped this winter or not, we are not advised.

PERSONAL.—Senator Griggs left for the "seat of war"—the Legislative Hall, on Monday last. We have no doubt but what he will render good account of himself this winter, and expect to see him return among us in the spring "crowned with honors."

Mr. Lewis also appeared promptly in his seat at the opening of the session. Carver County is ably and well represented in the persons of Messrs. Griggs and Lewis.

Mr. H. J. Peck, formerly of Shakopee, but more recently of Montana, was in town this week, and intends locating in our village for the practice of law this winter. Mr. Peck enjoys a good reputation as a lawyer, and we bespeak for him his share of the practice.

COUNTY BOARD.—The County Board met and organized last Tuesday by electing F. E. Du Toit Chairman for the ensuing year. They were in session three days and transacted a large amount of business. Commrs. Griffin, Reuse, and Kelly were sworn in, and proved themselves apt legislators. The proceedings will appear in our next issue.

NOTICE TO TAXPAYERS.—Attention is called to the Notice of the Treasurer in another column. It will be seen that he will enforce the penalty of 5 per cent upon all personal property of 1867, not paid prior to the first of March next. Also will take measures to collect personal taxes for back years, if not settled at once.

HONORARY.—B. Kilholz Esq. of this village, was elected as enrolling Clerk of the House. It is presumed this position was awarded him in view of his labors upon the stump in the late campaign.

SATISFIED.—Many housewives who have been using Soda for years, have become satisfied that D. B. De Land & Co.'s Best Chemical Saleratus is better for all purposes than Soda, and therefore cannot be induced to use Soda, or any other brand of Saleratus.

ATLANTIC MONTHLY.—The January number of this excellent literary magazine is upon our table, it contains the first installment of Charles Dickens' new story, "George Silverman's Explanation," written expressly for that magazine. There are articles in this number from the following noted authors: J. G. Whittier, James Parton, W. C. Bryant, Bayard Taylor, Ralph Waldo Emerson and other celebrated authors. The Atlantic monthly is published by Ticknor & Fields, Boston, at Four Dollars a year.

Card.
(Communicated.)

The undersigned would thankfully acknowledge, that on the evening of Jan 2nd, his house or the Academy building were invaded, stolen, and taken possession of, by parties who, claiming to be friends from the country, peremptorily summoned him and his family home, from the house of a friend who had with apparent kindness, but, as it afterwards appeared, in connivance with the evening, invited them to tea. On the arrival of the injured party at his premises, he found that he had been grievously misinformed. The "friends from the country" were not country friends, but neighbors, friends and members of his congregation, who had pleasantly and cleverly contrived thus to surprise their pastor and his lady with a manifestation of their good will. The "invasion" turned out to be an outbreak of kindly feelings; the "storming" developed itself into a cheerfully noisy demonstration of the juveniles and of old folks, playing at boys and girls again for a little season, and the "taking possession" resulted in a surrender into the hands of the pastor and his wife of ammunition, baggage, and treasure to the amount of eighty five dollars—not to speak of the fragments that were left of a luxurious feast which the storming party had provided!

To the kind friends, whose hearts the Lord moved, during the past holiday season, thus, and otherwise, to be careful of the temporal comfort of the pastor and his family, may He also supply all needs, and grant the rich blessings of His heavenly grace!

C. L. REINKE.
Carver Items.

Our Special Correspondent.

SHAKOPEE.—We made this place a short visit on Sunday last and found "things" looking as bright and prosperous as usual. We called upon that wholesome, good natured and thorough business man D. L. How, and found him in good humor and spirits as is his custom to be. We also called upon Robt. Kennedy prop. of the "American House," who we are glad to hear is doing a good business. Before leaving we called at the Store of "Huntsman & How," and found our old friend "Squire" looking as "Happy and pleasant as ever." Squire is one of the best hearted men that Shakopee can boast of, and she has lots of em. We intended to call upon Frank Mead of the Spectator, but time would not permit.

PERSONAL.—Judge A. G. Chatfield of Belle Plaine was in town on Friday last, engaged in trying a suit before Justice Leiford.

Wm. B. Mohler and Capt. Holmes were in the Minnesota River last week in business.

CHRISTMAS AND NEW YEAR.—Passed by very quietly, services were held at the School House in morning and evening. Rev. Mr. Fisher officiated.

WREATH.—This article brought on Friday and Saturday \$1.65 per bushel, while at the same time it was being bought at \$1.50 at Minneapolis, come to Carver with your wheat farmers.

FUNERAL.—The funeral of Mr. Noyes on Thursday last was very largely attended, showing that the deceased was held in high estimation by our citizens. Rev. Mr. Sheldon of Excelsior preached the funeral sermon.

VENISON.—There was a sudden fall in the price of "Venison" last week, occasioned by the return of "The Houghtons" from their grand hunt, bringing with them 25 deer. We consider this pretty good hunting. They were only gone 12 days. We believe in the neighborhood of Gloucester.

ANOTHER CHURCH.—We understand that the Methodists of this place intend to erect a large brick Church in this place early in the spring. The more the better.

HOTEL EMPLOY.—The Hotel lately occupied by G. Hismeyer is now empty. There is a good chance for some enterprising man to take this house in hand, and make it pay well. There is no reason why it won't pay if properly managed.

HAIL.—We had a slight hail storm on Friday, accompanied with more or less sleet, making it rather slippery on our feet.

Deafness, Catarrh, Consumption, and Cancer Cured.

A Treatise on Deafness, Catarrh, Consumption and Cancer; their causes, means of speedy relief, and ultimate cure. By a Fugl of the Academy of Medicine, Paris. Sent to any address for 10 cents.

Letter from Robt. McMurdy, D.D. LL.D., Grand Prelate of Grand Encampment of U. S. and Editor of the "National Freeman."

New York, Sept. 17, 1867.—Dr. Stillwell was in charge of Grace Church Hospital, Alexandria, Va., during the war. I frequently, almost daily, for months, visited this Hospital, and had every means of knowing his reputation for efficiency and skill. It was of the most creditable character, and his success in the treatment of patients was remarkable.—Robt. McMurdy.

Organic Vibrator.

It fits into the ear, is not perceptible, removes ringing noises in the head, and enables deaf persons to hear distinctly at church and public assemblies. This instrument will often produce results almost miraculous, and indeed in most cases of long standing deafness, it will relieve in a short time. It may be adjusted with the ease of spectacles.

Dr. Stillwell will be professionally at 81 East Washington Place, University Building, N. Y., daily, 10 to 4.

GOODEY'S LADY'S BOOK FOR 1868.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST!

The friend of woman, the arbiter of fashion, the encourager and publisher of the best literature of the day, the pattern from which all others copy.

READING MATTER.

In this there will be no improvement. The volume for 1868 will be set up with new-faced type, and of a size that will enable us to give an additional quantity of reading matter, amounting to about twelve pages in each number.

Beautiful Steel Plates.

or other rare and beautiful engravings, each year, superior (we challenge comparison) to any published in this country, either in book or periodical.

The Literature of the Lady's Book.

Marion Harland, Author of "Auntie," "Hidden Path," "Moss Side," "Nemesis," and "Miriam," who contributes one new monthly publication, will furnish a new novel for 1868, called "Phenix Rowland," that will run through the year. Her stories are anxiously sought after, and as they are copyrighted, can be found nowhere but in Goodey's. Our former efficient corps of writers has also been retained.

OUR FASHION PLATES.

The original double fashion-plates will be continued.

Model Cottages.—The only magazine in this country that gives these designs is the Lady's Book.

Drawing Lessons.—In this we are also alone. Original Music.—Goodey's is the only magazine in which music prepared expressly for it appears.

We have also a Children's, a Horticultural, and a Health department.

Goodey's Invaluable Receipts upon ever, subject, for the Bondist, Nursery, Kitchen, House, and Laundry.

Engraved Engravings.—This is a series of engravings that no one has attended but ourselves. They give great satisfaction.

Ladies' Fancy Work Department.—Some of the designs in this department are printed in colors, in a style unequalled.

TERMS FOR 1868.

One copy, one year	\$3 00
Two copies, one year	\$5 00
Three copies, one year	\$7 00
Four copies, one year	\$9 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	\$14 00
Six copies, one year, and an extra copy to the person getting up the club, making seven copies	\$19 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	\$24 00
How To Remit.—In remitting by Mail, a Post Office Order or Draft, payable to the order of L. A. Godley, is preferable to bank notes, as should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

ROBERT M. DOUGLASS and Stephen A. Douglas, sons of the late Senator Douglas, were lately on a visit to their relatives in North Carolina. Robert M. is nineteen years of age, and Stephen A. is seventeen.

Miscellaneous Items.

The making of jewelry costs employs 2,000 persons in New York.

The "hot" skate is the latest invention. The heat comes from a chemical arrangement.

In Danbury, Conn., a deaf and dumb man has started a shoe shop, and all his workmen are deaf and dumb.

FRUITFUL, in minute doses, is declared to be a cure for cholera and intermittent fever. It is a very dangerous remedy.

The operatives of the Littleton (N. H.) woolen mills have refused to work for 10 per cent. reduction of their wages, and the mills are stopped until spring.

The Missouri Valley Railroad Company have lately added to the rolling stock of their road two elegant passenger cars and two passenger locomotives.

The double track on the Hudson River railroad was completed on the 10th inst. Previously New York and Albany have been connected by a single track only.

The Union Pacific Railroad Company have decided on having Lawrence the headquarters of the road, and preparations are making to transfer all the offices there.

Orders have been received at the Charleston (S. C.) navy yard for the discharge of 30 per cent. of the force of employees in the mechanical department.

A firm in Hubbardston, Mass., is manufacturing a roofing material without rollers, the desired motion being supplied by steel springs, ingeniously arranged under the roof.

The Boston Post admits that the new style of hoop skirts don't give the ladies as much room as the old pattern; but then it gives every body else a good deal more room.

Lake Erie is fed by one underground stream that is seventy feet deep where it enters the earth, and does not reappear until its waters have mingled with those of the lake.

The nine-hour labor system went into operation in the different shops of the Pullman Palace Car Company on the 1st inst., with a corresponding reduction in the wages of the employees.

The Chicago, Rock Island & Pacific Railroad Company have now completed a new line of telegraph between Rock Island and Chicago, for their own use, the wires being on the same poles now used for the telegraph.

The New York Press learns that E. A. Stevens the Hoboken millionaire, is about to engage in the enterprise of constructing horse-rails in Paris, and has engaged the services of Gen. George B. McClellan, as Engineer.

The Republic says that at the La Crosse United States Office, during the month of November, there were ordered 15,167 acres, of which 10,380 acres were for actual settlement and cultivation under the Homestead law.

Lieutenant General Sherman, Major General Sheridan, and General Major General Arthur have been appointed a Board to examine the proposed system of revised army regulations. The Board is to begin its labors about January 1.

The Albany Journal, states that the Receiver General for the year, but now there is a probability that the mills will not run until next spring.

The Essen establishment of Krupp's new employees 10,000. The value of the 65,000 tons of cast steel, valued at \$7,000,000 left the works. Essen has now delivered 3,500 cast steel gun wheels at \$5,500,000. The steel production of last year involved a daily consumption of one thousand tons of coal.

The Omaha Herald quotes: "A Western contemporary says the train on the Union Pacific will 'run on Omaha time,' and remarks thereon: 'This is the fact. Omaha time means fast time—get up and dust time—and all the world will run on it in due time. It is time shall prove that fast time is the best time.'

An Alabama editor recently made the following black-mail speculation, by a nonchalant that if a bottle of champagne should be sent him, he would refrain from mentioning "a certain little affair." He received seven bottles from seven persons, with seven notes, requesting him to keep "shady."

Machine belting is now being manufactured by a firm at Dalton, Mass. This belting is reported to be in use in several New England mills, and the Dalton manufacturer has made a belt seventy-five feet long and eight inches wide. The paper belting is said to have all the merits of leather and some great advantages.

The Commercial Bulletin, of New Orleans, states that the head of "A Starling Fact," that the steamer John K. Moore left its wharf in that city on the 5th, with one hundred bales of cotton, to be transported to New York via Cuba, Chicago, and the Michigan Central Railroad (Blue Line) at \$5 per bale, all rail. Time guaranteed, ten days.

Late dates from Montana say that the John Chinaman of Virginia City were about to hold an election to ascertain which of their number, in their opinion, had been guilty of a certain act of in-

humanity, each one placing in a box the name of the person he thought guilty, and the one receiving the highest number of votes to be punished with death.

The New York Constitutional Convention adjourned December 30, to meet at Troy, January 14. A motion to remain in Albany was defeated by 54 to 83, and the invitation of Troy was accepted, 84 to 31. It is expected the adjourned session will continue six weeks. The most important question remaining is in relation to the government of cities.

The Travelers' Insurance Company of Hartford recently examined into the case of Joseph Doran, who claimed \$3,000 policy on the life of a little girl who was burned to death in his house in Canaan, N. Y., some days since.

The body of the child was exhumed, and marks of heavy blows were found upon the back of the head. It is thought probable the child was murdered before the house was set on fire.

The Cunard steamers are to be withdrawn from Boston. Mr. E. C. Mearns writes from the city, that the Cunard line, an average of 3,500 tons of freight every week, or 10,000 tons per month from New York, are to be withdrawn from Boston, and 600 tons once a fortnight at one-half rates, and a good deal of the little freight obtained in Boston was sent on from New York, and the Cunard line is to be withdrawn from Boston, and the low rates of freight being the inducement.

The bridge of the Chicago, Rock Island & Pacific Railroad Company, across the river at Des Moines, is progressing rapidly. The trouble work for the first time in the history of the bridge, in Chicago, and is now on the ground ready for putting up. It is 720 feet long, and will be the longest bridge of its kind in the West. Forty miles of the road are already ready for the rails, and a heavy force is still working.

In his labor story, Dickens assumes the position that first impressions, based on the first sight of a factory, are generally correct, though they may for a time be explained away, if unfavorable, by the fact of the person's being a stranger.

"I have known a vast quantity of nonsense talked about men not looking you in the face. Don't trust that conventional idea. Dishonesty will stare honestly out of countenance, any day in the week, if there is anything to be said for it."

In Boston a horse that had for a long time drawn a steam engine to a fire was temporarily exchanged for one that had never performed that service. The night when the exchange took place a fire occurred, but the firemen could not make any use of the animal which would have pulled the engine, and the city was left in a state of confusion.

FRUITFUL, in minute doses, is declared to be a cure for cholera and intermittent fever. It is a very dangerous remedy.

The operatives of the Littleton (N. H.) woolen mills have refused to work for 10 per cent. reduction of their wages, and the mills are stopped until spring.

The Missouri Valley Railroad Company have lately added to the rolling stock of their road two elegant passenger cars and two passenger locomotives.

The double track on the Hudson River railroad was completed on the 10th inst. Previously New York and Albany have been connected by a single track only.

The Union Pacific Railroad Company have decided on having Lawrence the headquarters of the road, and preparations are making to transfer all the offices there.

Orders have been received at the Charleston (S. C.) navy yard for the discharge of 30 per cent. of the force of employees in the mechanical department.

A firm in Hubbardston, Mass., is manufacturing a roofing material without rollers, the desired motion being supplied by steel springs, ingeniously arranged under the roof.

The Boston Post admits that the new style of hoop skirts don't give the ladies as much room as the old pattern; but then it gives every body else a good deal more room.
